

Exploring the options with evidence

Cannabinoids in Clinical Practice

June 21, 2013, 8:50am-5:00pm • University of British Columbia, Vancouver, Canada

Continuing Medical Education

Basic and Clinical Science • Expert Presentations

Patient Case • Panel Discussions • Q & A

At the end of this program, participants should be able to:

- Identify clinically relevant components of herbal cannabis and the endocannabinoid system
- Discuss research into the use of cannabinoids for the treatment of mental health, anorexia, pain and spasticity
- Recognize risks associated with the use of cannabis as medicine
- Consider practical clinical and patient perspectives on the clinical use of cannabis

ICRS

Stay for the Annual Meeting of
the International Cannabinoid
Research Society (ICRS)
June 22-25, 2013
